Like a lot of people, we like tasty food that isn't full of pesticides and mad cow disease. Please provide three full grown man-ish meals with no sugar, gluten or flavor enhancer in it. Since we don't do things by half-measures the dinner must be wholemeal and it would be nice to have it local and organic, too. Of course everything has to be a 100% VEGAN. If that's too damn berlinesque, a 25 € buy out per person will do.

Fairtrade tea, strong coffee and still water will be highly appreciated as well as your hospitality as a whole.

DANKE, DOUNGSCHER, MERCI, 감사합니다 & THANKS (...) !
